Made Like an Entirely New
Person by Taking Great Vin
Hepatica Prescription.

Mr. O. Harsin, hard-working harnessmaker, of 2105 Maple street, Louisville, Ky., says:

"I suffered from backache, general rundown condition, loss of appetite, indigestion, rheumatism and loss of sleep, but after taking the Vin Hepatica prescription, which was recommended to me, I now sleep well, am able to do my work as usual and feel like a new person."

This famous Vin Hepatica prescription is composed of eight of the most powerful all-vegetable remedies known to medical science. It goes at once to the very seat of the trouble, cleanses the system of impurities, tones up the nerves and vital organs and makes you feel like a new person.

We recommend it to anyone suffering from such troubles. It is truly a wonderful medicine. Come in and get a bottle and try it. It will do you good.

URGENT CALL FOR SKILLED MEN

Fifty-First Infantry Headquar-
ters Company Wants 128
Men to Fill Quota.

The headquarters company of the Fifty-first Infantry needs 128 men skilled in various lines. This call is urgent and the officers of the company, Capt. L. H. Waters, Lieut. J. G. Crookston and Winfield B. Scott, will be at the Armory on Market street from 2 until 5 Saturday afternoon to receive enlistments.

The headquarters companies are composed of special units and are entirely different from the line companies, and hence the service is more attractive.

Any man, even though he be subject to draft, can enlist in this service. All that is needed is for him to make application, receive a certificate from the recruiting officers, which will act as authority for his release by the exemption boards.

Enlistments will be accepted from any section of the country.

The immediate needs of the company call for the following men:

Intelligence Section—1 skilled investigator, 1 college graduate who speaks French, 1 college graduate who speaks German, 2 bicyclists, high school graduates; 3 high school graduates, athletes.

Staff Platoon—1 auto chauffeur, 2 motorcycle orderlies, 12 bicycle orderlies, 1 merchant or storekeeper, 7 clerical workers, stenographers, typewriters, etc.

Band—12 musicians.

Signal Platoon—3 telephone men, 3 electricians or telegraphers, 1 cable splicer, 3 linemen, 3 interpreters, German; 3 interpreters, French; 6 radio and buzzer operators, 6 telegraphers.

Sappers—1 bombardier, 1 construction foreman, skilled; 11 miners, 1 timberman.

Pioneer Platoon—2 construction foremen, 4 mine foremen or timbermen, 10 diggers, 4 percenters, timber; 1 pipe fitter.

One-pounder Platoon—3 transmitters or mechanics; 3 mechanics, 5 teamsters, partly skilled; teamsters, partly skilled.

Local draft boards have received notice in this connection to induct men into service of the Fifty-first Infantry, and already several men have been sent to the infantry headquarters by local boards.

Those who desire early service can join this regiment and be assured of going to the front in the near future, according to information from the adjutant of the headquarters.

The organizations of the regiment consist of miners and sappers, a trench mortar platoon, 27-mm. machine guns, grenadiers, both hand and rifle; signal men and office force at headquarters.

All registrants desiring to be inducted into this company are advised to consult with the local board before deciding to join. Those who desire a service that will give some excitement will find all that is coming to them in this company, declared one of the officers.

The local board chairman said they were pleased with the way their men had taken an interest in the tank service to the extent that over half of the enlisted men in the tank company came from various local boards, and that the registrants would carry out their part in enlisting in Capt. Watson's company.

The local board can send any registrant from class 1 to class 4 under this hurry-up call. County board No. 2 has already inducted Fred Mead and Thomas C. Greene into service with the infantry since the call was made late Thursday.

MYSTIC SHRINERS TO
REPEAT MINSTREL SHOW

Alhambra Troupe Will Present
"The Jollies of 1918" at
an Early Date.

Preliminary plans of the Mystic Shrine temple Nobles of the Mystic Shrine incident to their annual performance of "The Jollies of 1918" will be perfected at a meeting which will be held in the banquet hall of the Read house at 3 o'clock Friday evening. General Chairman John E. Evans, of the executive committee, has requested the chairman of the various subcommittees and the individual members of their committees to meet with the executive committee in order that the various features be gone into.

The success attained by the Shriners in their initial performance last year caused them to decide upon their second annual minstrel in deference, however to a number of civic matters they withheld the selection of dates. Troubles were also encountered in the securing of a theater in which to give the performance. Upon securing a contract with the management of the Lyric the dates of May 2, 3, 4 were selected. It is the purpose of Alhambra temple to give three night performances, with one matinee on Saturday. Although it is rather unusual for even the best of minstrels to give more than two performances in Chattanooga the Shriners feel that their reputation has already been made and they claim that capacity houses will give them a good performance.

As Alhambra temple Mystic Shrine has a membership of more than six hundred the various participants in the minstrel will be recruited from the membership, among which there is a large number whose talents have already been shown in previous minstrel and theatrical performances. The participants will not be announced until after the arrival of the director, Alex Robb, of the Jo Breen Producing company, who will not only rehearse the players but will be present to stage the performance.

Delay in Shipyard Contract Explained

Washington, April 5.—William Denman, formerly chairman of the shipping board, testifying today before the senate commerce committee at his own request, placed the blame for delay in beginning construction at the Hos Island, Pa., shipyard on H. D. H. Connick, engineer for the American International Shipbuilding corporation, who, he said, endeavored to get the shipping board to enter into a contract by which the corporation would receive a fee of from \$12,000,000 to \$15,000,000.

Denman said he and his associates on the shipping board believed the fee too large and delayed signing the contract. "It is greatly to the credit of the men who succeeded us that this fee demanded by Mr. Connick was greatly reduced," said Mr. Denman.
